

# NATUREWORKS

*Garden Design & Landscape Services*

Thank you for contacting us about our garden design and landscape services. Whether we are starting with a new garden bed or renovating existing gardens, our design staff and landscaping crews are proud to specialize in creating and caring for beautiful and ecological gardens – *Organically*.

## **Landscape Consultations**

Meeting with our clients and seeing the site first-hand is important to understanding the scope of work and materials required to making garden dreams a reality.

### 1. **On-site landscape consultation**

Whatever your landscaping needs are, the consultation is the time for us to understand the existing landscape. This may include site analysis, plant inventory and measuring. Photographs taken of your home and garden during the consultation will assist us with creating the design proposal, landscape plans and/or estimates.

**with Nancy DuBrule-Clemente up to 2 hours.....\$100** per hour plus tax

*Nancy is the owner of Natureworks and brings over 30 years of professional gardening experience to her landscape consultations.*

**with design staff or landscape crew.....\$65** per hour plus tax

*During the consultation, you may decide you would like more detailed information. We can provide you with the following:*

**Design Proposal** *A descriptive outline noting areas for design as discussed during the consultation. Includes cost estimate to prepare detailed planting plans*

**Rough Sketches or Landscape Plans** *includes copies of sketches or detailed planting plans and plant lists.*

### 2. **In-house consultation**

Bring your sketches, photographs and measurements to Natureworks and Nancy or a design staff member will work with you in creating plant lists, rough sketches or scale drawings to help move your project forward.

**with Nancy DuBrule-Clemente.....\$100** per hour plus tax

**with design staff or landscape crew.....\$65** per hour plus tax

### Design Fee and Landscape Plans

Once a design proposal has been accepted, the project site is measured and landscape plans are drawn to scale. These plans provide a necessary map for installing your gardens. Includes plant list.

**\$85 per hour plus tax**

*You can be confident that you will have an easy care, well-managed landscape.  
Let us do it right the first time, then if you'd like, we can continue to maintain it year after year.*

### Garden Labor - installation, renovation and/or maintenance

All labor is performed by our experienced crews using organic materials and methods. We offer several maintenance options to choose from. Please call us for details or visit our website [www.naturework.com](http://www.naturework.com) to see what option is right for you and your garden. **\$54 per person per hour plus tax** (Additional labor charges include travel time, delivery of materials and fees for equipment rental.)

*Estimates We provide estimates for plants, materials and labor costs for our landscape crew to clean-up, remove, renovate and/or install. All estimates are valid for 60 days.*

### Looking for information and inspiration? Visit our retail shop.

We invite you to visit our retail shop where you'll find a superb selection of plant material and organic gardening products. Our retail staff will happily show you around and share their expertise. Take a walk through our demonstration gardens to find inspiration or join us for one of our free educational garden walks. Sign up for our weekly email to receive timely gardening information and news regarding garden classes and events.

*Gardening Organically Since 1983!*
